

Amr Mohammed Abdelhamed Mohammed

Born 17 May 1979

Bachelor of Arts Degree – Graphics (Printed Design)

Issued by: Helwan University, Helwan, Egypten.
Nominal length: 4 years.
Year of completion: 2001.
Access requirement: 12 years of schooling.

This is a higher educational qualification in graphics with emphasis on printed design.

The programme includes subjects such as Drawing and Design, Calligraphy, Printmaking Technology, History of Arts, Principles of Perspective, Landscaping, Sketching as well as Criticism and Aesthetics. The programme also includes a preparatory year as well as a graduation project.

Assessment: The qualification is comparable in level to a Danish Bachelor of Visual Communication – Graphic Design (in Danish: en dansk professionsbacheloruddannelse i visuel kommunikation – grafisk design).

Adult education qualifications are taught at levels corresponding to those of the ordinary education system. The table below shows the levels belonging to higher education:

Adult education	Corresponding level in the ordinary education system
Master degree (Mastergrad)	Master's degree (MA/MSc)
Diploma degree (Diplom)	Bachelor's degree Professional Bachelor's degree
Academy Profession degree (Akademiuddannelse)	Academy Profession degree (Erhvervsakademigrad – AK)

In some cases, the level of the qualification assessed is situated between two levels of the Danish education system. In such cases, the assessment says that the foreign qualification corresponds in level to part of a Danish qualification, indicating a certain number of years of an education programme.

Field of education

As far as possible, the assessment also indicates the field of education to which your qualification belongs in the Danish education system. If possible, the Danish Agency for Higher Education and Science compares the foreign qualification to a specific Danish qualification. If no corresponding Danish qualification exists, the assessment normally mentions a broader field of study. In higher education, this could be a field such as social science. In vocational education and training, it could be a field such as business.
